Maverick Metals Linc.

Metals with Perfection...

About us

Allows us to introduce ourselves as Maverick Metals Linc engaged in the manufacturing and export of high-quality non-ferrous and ferrous metal components and electrical accessories. Producing inexpensive but precision metal components at the company's multiple manufacturing sites have been an art for the last 25 years. We are a team of highly qualified personnel and having vast experience in the field of manufacturing of Precision Machined Products.

We manufacture various products as per Specific Drawings & Samples through reverse engineering, aiming at quality as per International Standards. Since inception, we have paced up our growth with continuous improvement in quality and achieved the utmost customer's satisfaction. Our focus is only on maximum customer satisfaction.

Our company consists of three manufacturing units with a different process like turning, forging, casting, milling, molding, extruding and a wide range of products from material like **Brass, copper, gunmetal, bronze, aluminum, stainless steel.**

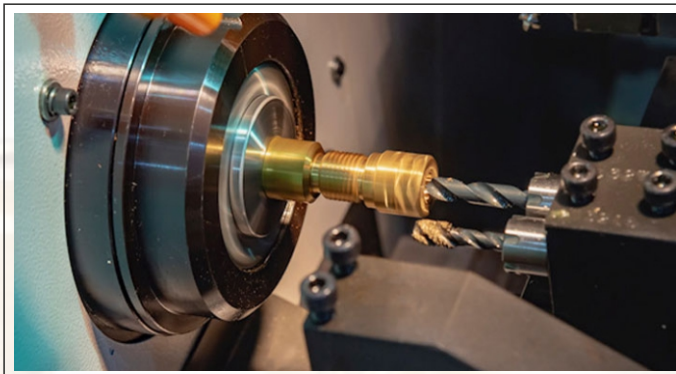

One-stop solution for metal components

- Brass Cable Glands and cable accessories
- Brass Electrical components and accessories
- Conduit fittings
- Pipe and Sanitary Fittings
- Fasteners and Fixings
- Earthing and lightning Components
- Grounding Clamps and Components
- Forging and casting parts
- CNC Turned parts
- Valves and manifolds
- Ingots and Extruded rods

List of Machinery

- Automatic Turning Machines
- Cold heading Machines
- CNC Machine Centers
- Threading Machines
- PMs For High Volume Special Parts
- Forging / Stamping Presses
- Fully Equipped Foundries With Various Molds
- Non-Ferrous Extrusion Plant

Processes Performed

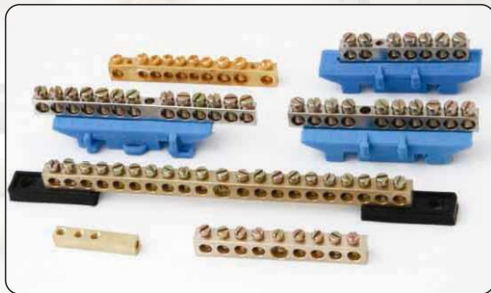

- Sand Casting
- Shell Moulding
- Machining (Turning/Milling)
- Forging
- Stamping (For sheet metal Parts)
- Electro Plating/Coating

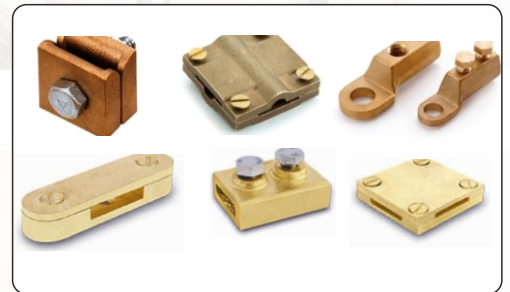

FASTENERS

BRASS ELECTRICAL ACCESSORIES

EARTHING & LIGHTING PROTECTION

SANITARY FITTINGS & CABLE GLANDS

We Manufacture Various Products as Per Specific Drawings & Samples
